

MAYSVILLE, KENTUCKY, WEDNESDAY, SEPTEMBER 16, 1914.

ONE COPY—ONE CENT.

Hon. Jacob E. Meeker—His Speech

**He Has Come, Performed Four and One-Quarter Hours and Gone—
Country People's Debt to Maysville Made Clear**

The "DRYS" have received the discharge of the heaviest gun of the "WETS" and been greatly strengthened and encouraged. The worst is over and unless the Hon. Jacob E. Meeker's gun is the kind that kicks, nobody is hurt.

Mr. Meeker's opening remarks were intended to prejudice the minds of his hearers against local option by referring to it as a movement that was disturbing the community and likely to produce hard feeling and ill will. Though fond of quoting Jesus and the Bible in support of the saloons, the speaker neglected to say that Jesus said: "I came to bring not peace but a sword," and that the Bible commands us to be "first pure then peaceful." Christ scourged the money-changers out of the Temple. Mr. Meeker forgot that.

PLAYS FOR SYMPATHY

He then made a play for the Catholic sympathy, by insinuating that somebody was making it uncomfortable for Catholics and then lest he might have hurt some Protestants' feelings, he salved the supposed wound by declaring for the democratic management of our public schools. In fact he played both ends against the middle. What has that to do with saloons in Maysville?

Having by various tricks known to the trade of public speaking, endeavored to get on good terms with his audience, Mr. Meeker talked for about one hour and one-half in the afternoon about John D. Rockefeller and Standard Oil, the American Tobacco Company, trusts, graft, patent medicines, corsets and women's dress, in general about as you would expect an advocate of the saloon; how housewives neglect their maid-servants, the proper furnishing of a boy's room, the hypocrisy of church members (his favorite topic) and most everything else in Christendom except the nature of alcohol, its effect on living tissues and the policy of opening shops for the exclusive sale of a poisonous drug as a beverage.

COUNTRY PEOPLE'S DEBT TO MAYSVILLE

He did however tell the country people how much they are indebted to the

people of Maysville because Maysville people pay their county taxes, part of which goes to maintaining the roads so that the country people can come to town and buy what Maysville has to sell and so that Maysville people can come out into the country in their automobiles, run country people off the roads (or run over them) and leave them with dust.

The speaker told how the obligation of the country people is greatly increased because the city of Maysville has built a High School to which the country people are allowed upon payment of tuition fees to send their children and he drew the conclusion that the very least the country people can do to repay these favors is to send the boys and farm-hands into Maysville to drink up \$1,400,000 worth of liquor each year in order that the city of Maysville may get \$17,500 annual revenue. (The figures are Mr. Meeker's.)

Remembering that their boys are dear to them and that liquor consuming farm-hands cause many times \$17,500 in loss of time and damage to crops and stock, the country people knew enough to see that they were offered a bad bargain; and one really wondered how some of the business interests of Maysville keep out of bankruptcy thirty days, run by men who applauded Mr. Meeker's proposition and who appeared to think that he was really discussing the question at issue: "Is the open saloon a good thing for Maysville and Mason County?"

At the conclusion of this avalanche of words in which Mr. Meeker sought to lose his hearers and by which he hoped to direct their minds from the real issue he did say that Prohibition does not prohibit and that the consumption of liquor has increased in the last fifteen years. BUT HE DID NOT SAY THAT THE INCREASE HAS BEEN AMONG THE FOREIGN BORN POPULATION WHILE THERE HAS BEEN A DECREASE AMONG THE NATIVE BORN and he did not say that THE INCREASE HAS BEEN IN "WET" TERRITORY, WHILE THERE HAS BEEN A GREAT DECREASE IN DRY TERRITORY.

He did not say that in "Dry" America.

TERRITORY THE PER CAPITA CONSUMPTION OF LIQUOR IS LESS THAN TWO GALLONS, WHILE IT IS OVER 23 GALLONS IN "WET" TERRITORY.

AVOIDS HIS SUBJECT

Although Mr. Meeker's address contained almost as many subjects as the dictionary, the peculiar thing about it was, that he did not touch on that phase of any of his topics that bore on his announced theme—the saloon. For instance he did not tell that the Tobacco Trust and the Whisky Trust are as close together as Siamese twins and are always found together in the State and National legislative halls trying to defeat any legislation that the people want. HE DID NOT TELL THAT ALL THE CORRUPT LEGISLATION THAT HAS FOSTERED TRUSTS HAS BEEN PROCURED BY DEBAUCHING THE FLOATING AND PURCHASABLE VOTE THROUGH THE SALOON; THAT THE CHIEF AGENT OF CORRUPT LEGISLATION IS THE WARD HEELER AND HIS CHIEF INSTRUMENT IS THE SALOON.

HE DID NOT TELL THAT GRAFT IN CITY POLITICS HAS ITS FOUNTAIN HEAD IN THE SALOON AND ITS ATTENDING VICES.

YES, MR. MEEKER, THE ANTI-SALOON LEAGUE IS FIGHTING TRUSTS AND GRAFT IN THAT IT WILL BE A SAD DAY FOR TRUSTS AND GRAFT WHEN THE AMERICAN VOTER GETS SOBER AND THE AMERICAN SALOON NO LONGER FURNISHES A COUNCIL CHAMBER FOR CORRUPT POLITICIANS AND A MEANS OF CORRUPTING VOTERS AND THE CHIEF FOR GRAFT IN EVERY CITY

AMERICA.

He did not tell that though housewives may be culpable in their neglect of the comfort and well-being of women in their employ, that investigation shows that it is yet necessary that the appetites of men be stimulated and perverted, their self-respect and power of restraint deadened, and the power of resistance of unfortunate girls reduced to the minimum by intoxicating drink before the social evil can be made commercially profitable that both the demand and the supply of the brothel is created by the saloon.

Mr. Meeker out to be thanked for telling women that because Peruna, Hostetter's Bitters, the Wine of Cardui, Swamp Root and other patent medicines contain large per cents of alcohol, they are habit-forming nostrums and are the cause of the nervousness that is only quieted by taking more of the stuff. Where he went amuck was in seeking to make the impression that he was the first to make this discovery, and to give this warning, whereas for forty years the Woman's Christian Temperance Union has fought Patent Medicines containing alcohol, as it fights alcohol in all forms, and that Collier's Weekly, the Ladies' Home Journal and the religious press have made a regular crusade against these nostrums and long since shut all advertising of them out of their columns.

In discussing the proper furnishing of a boy's room he omitted to say that there is not much use to spend time discussing the proper furnishing of the room of a boy whose father is a good patron of the saloon. THAT FATHER WILL NOT HAVE A ROOM TO GIVE HIS BOY, MUCH LESS TO FURNISH WITH REFERENCE TO THE BOY'S INDIVIDUAL TASTES.

WOMEN AND SALOONS

He made a dig at women by naming a list of towns and cities in Illinois that went "Wet" with women voting. He did not tell that in the same election WOMEN PUT SIXTEEN COUNTIES OF ILLINOIS IN THE "DRY" COLUMN AND CLOSED UP 1,000 SALLOONS. That is going on.

He said women kept saloons in Los Angeles. YES, AND THEY PUT THROUGH THE CITY COUNCIL REGULATIONS DOING AWAY WITH THE UPPER ROOM, AND THE BACK DOOR OF SALOONS, TOOK DOWN ALL BLINDS AND SHUTTERS AND SCREENS, ABOLISHED FREE LUNCHES AND ALLOW THE SALOONS TO KEEP OPEN ONLY DURING DAYLIGHT HOURS.

Now if they don't be good the women will probably close them entirely at the next election.

THE Autumn SUITS

While all are inspired by advance New York fashions they are not too extreme for conservative tastes. Every one however shows definite touches of newness—in the pleated skirts so different from the ruffled skirts of last spring, and the Russian tunics of last summer. Also in the great change in coats, as shown in the long cossack and redingote. Prices offer a most satisfactory range \$15 to \$35.

We do not sell suits under \$15, except a few numbers reduced in price, because our customers realize the quality and style they demand in even inexpensive suits are not obtainable for less than the small sum of \$15.

WANTED HER TO BE

"DRESSED" UP AT TABLE.

At Columbus, Indiana, alleging that her husband refused to eat with her unless she was "dressed up," that he failed to provide for her and constantly nagged her because she would not pay his debts, that he said he married her without love and wholly for her money, that he accused her of killing her former husband and that he wrote to an Indianapolis specialist who was treating her, that there was nothing the matter with her except her system was poisoned with meanness, Mrs. Louise D. Whithoff, the wealthy wife of Harry E. Whithoff, has filed an amended complaint in her divorce case in Circuit Court here.

Otherwise the lady must be alright.

OUR BIGGEST AUDIENCE.

Few people have any adequate notion of the actual extent of the moving picture business in America. Chairman F. C. Howe, of the National Board of Censorship of Motion Pictures, gives these figures: 16,000 to 20,000 theaters daily entertain from 7,000,000 to 12,000,000 persons daily, an aggregate of 2,000,000,000 to 3,000,000,000 yearly. The capital invested is estimated at \$150,000,000 and the public spends annually something like \$300,000,000. This gigantic business has all been developed in less than 10 years, and is still growing with amazing rapidity. Churches and schools are becoming well represented in it, and the moral character of the films is steadily rising to a higher standard.—Christian Herald.

THE PISTOL LAW

A mountain exchange voices a complaint to the effect that "the law making it a penal offense to carry concealed deadly weapons seems to be entirely ignored" in that section of the State. Laws that are ignored accomplish no good. We believe it was a mountain legislator who first proposed the law that was enacted by the last Legislature. Presumably he thought the law was needed in the mountains and that the officials would enforce it. We note that it is being put into effect in some of the counties and if they will all join in the effort at enforcement there will be much less pistol-toting and as a consequence, much less bloodshed.—State Journal.

AS IT SHOULD BE

One of the most pleasing features of the big fair this year is the predominance of West Virginia exhibits. In previous years the remark has often been heard that the West Virginia fair showed more of the products of Ohio than of West Virginia. The Ohio exhibitors were always welcome, and always will be, but it is a matter of patriotic pride that West Virginia is at last waking up to her great opportunity. Ohio is splendidly represented this year, but, as stated, West Virginia takes the lead.—Wheeling News.

"HIT THE NAIL ON THE HEAD."

The Charleston Mail hits the nail on the head by saying that a war tax of one hundred million dollars is not going to be any considerable addition to the popularity of the present Democratic administration, already on the decline.—Daily Telegram, Clarksburg.

"UNCLE JOE" AT 78, COMES BACK

Another item of nation-wide interest, and importance, was the news that "Uncle Joe" Cannon had again been nominated for Congress in the Danville, Ill., district, and it is extremely probable that he will be elected.

The nomination of "Uncle Joe" is still another evidence of returning sanity in American politics. He is a rugged, stalwart and patriotic Republican who believes in the principles upon which the Republican party was founded and under which this country prospered phenomenally for so many years.

M. Cannon is 78 years old, which in itself will make him one of the most notable figures in the next Congress, and if his strong intellect and political courage retain their accustomed vigor he will take a lively part in shaping legislation. Everybody will know his position and he will stand for all that is best for American capital and American labor.

AUTOMOBILES IN WAR

Germany's Amazing Feats Credited To Her Motor Cars.

(Washington Post.)
Germany's amazing feats in reducing the forts at Liege, Namur and Maubeuge are to be credited, it is said, to the efficiency of its motor cars. Powerful traction engines have dragged up huge siege guns, capable of effective work at a range of eight miles. The quick placing of these guns has caused modern forts to crumble away after brief assault, leaving the way clear for the onward of the Kaiser's innumerable infantry.

The German army has moved against the allies with irresistible force. It could not have done so, however, if it had not been aided by the automobile. Mere numbers would have meant nothing to the Belgian and French forts. This was shown at Liege in the early days of the assault, where the Germans attempted to take the forts with infantry. Enormous losses resulted, without shaking the defense. Then the big motor trucks were the means of bringing up siege guns of extraordinary size, which quickly silenced the forts. The armored motor cars of the Belgian and French armies have also given a good account of themselves, while the automobile has proved of invaluable service in mobilization and for scouting and courier work.

Aviation is in its infancy, and the predictions of marvelous sky battles have not materialized. The aeroplane has been useful in scouting and for signaling purposes, but on the whole it cannot compare with the automobile in range of usefulness for war purposes. War's essential features have not been altered by the aeroplane. Battles are still fought on solid ground, or on water, and the advantage lies with the commander who "gets that fast with the mostest men." The automobile is a direct help in this direction. It is the only substitute for the army mule, and that vital factor in war which has often done more, unheralded and unsung, to win victories than the brilliant strategy of military heroes.

TO SPEND NIGHT IN TIER OF NEW CELLS

Unique Stunts Are Planned For Entertainment of Kentucky Jailers.

(Louisville Herald.)
Jailer Charles C. Foster is busy arranging plans and details for the eighth annual convention of the Kentucky Jailers' Association, which will begin here Thursday. It will be the first time since it was organized that the jailers will meet in Louisville.

One of the unique features planned by Mr. Foster is an invitation to the members of the association to spend with him a night in the new \$30,000 tier of cells recently completed at the jail. A dinner cooked and eaten at the jail is also planned. The visitors expect to spend much time at the State Fair. The business sessions will be held either in the Courthouse or the Council chamber at the City Hall. Most of the business will be talks on legislative reforms relating to jails and the election of officers.

Officers of the association are: J. S. Mullins, of Winchester, president; John Etel, of Maysville, secretary, and W. Joseph Farris, of Paris, treasurer.

CONSOLIDATION

The Remedy For Weak Schools—Gives Efficiency.

(Courier-Journal.)

The voters in two school districts in Warren county have sanctioned a tax of 25 cents on every \$100 worth of property for the purpose of establishing a consolidated school.

This marks a beginning of school consolidation in another Kentucky county, the plan already having been successfully tried in some other portions of the State. In Warren county as a result of the recent vote, a central graded school will take the place of two old-fashioned district schools, transportation to be arranged for the benefit of children whose homes are not within walking distance of the new location.

The change means that the educational facilities of the two districts as at present constituted will be greatly improved. It may be that the new arrangement will be somewhat more expensive to the taxpayers, but they will get more for their money than they got under the old order of things and future events will demonstrate that they have acted wisely in voting for the merger.

There are too many school districts and as a consequence there are many weak schools—weak both in respect to numbers and efficiency. Consolidation is the best remedy and it should be applied wherever the conditions make it feasible.

LAST WILD PIGEON IS DEAD

Scientist Says Species Is Extinct and Blames Traps, Guns and Nets.

The last of the millions of wild pigeons which formerly inhabited eastern United States, has just died, according to the announcement made by T. Gilbert Pearson, secretary of the National Association of Audubon Societies.

The vast flocks which a generation ago were the ornithological wonder of the world, have entirely disappeared, and on September 1, the last individual died in the zoological gardens at Cincinnati.

"This marks the absolute extinction of another species of North American birds," said Mr. Pearson. "Many theories have been advanced regarding the cause of the disappearance of the pigeons, but there is only one cause—they have been wiped out by traps, nets and guns."—New York Herald.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the worm's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting fire?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

HOROSCOPE OF WILLIAM II

The Dismal Prophecies of Reader of Signs and Planets.

A writer in the New York Sun, signing himself Francis E. Hamilton, writes as follows:

"I enclose a copy of the horoscope of Emperor William II from W. Gorn Old's 'New Manual of Astronomy,' London, 1898. It may be of interest to your readers, even though they have no more belief in astrology than I have."

This astrological prophecy, which was printed sixteen years ago, reads as follows:

Born January 27, 1859, 3 p. m., at Berlin. Here we find Saturn in the sign of its debility opposing the sun in its weakest sign; Mars and Neptune conjoined in the meridian, and the sun semi-square to both; the malefics, Neptune, Mars and Uranus, elevated, and the moon in opposition to Uranus. The Emperor has a most fatal horoscope, and during his reign the German Empire will suffer reversals of which hitherto it has had no shadow of experience.

The destiny of Kaiser Wilhelm is such that he will lose nearly the whole of his possessions. He will never be a popular monarch. Mars, in the meridian, will cause him to engage in continual quarrels, and the sun in opposition to Saturn will denude him of his power among the nations. He will lose his royal spouse (the moon in opposition to Uranus retrograde) suddenly. It is not improbable that his territory will pass into the hands of France and Russia. Those, at least, are the two Powers who will contend for the possession of the empire which the Kaiser is powerless to retain. Nothing more adverse or less royal than this horoscope of the Kaiser, except perhaps that of the Sultan of Turkey, is to be found among the rulers of Europe. The Kaiser will die, suddenly, and the heart will be the seat of the fatal affection.

This horoscope is introduced to illustrate the rules in regard to the question of wealth and possessions. Before the year 1915 it is probable Germany will have passed into the hands of its enemies.

MADE IN AMERICA

To Be Slogan of Movement Started By Philadelphians.

Philadelphia manufacturers inaugurated a movement, which it is expected will become nation-wide, for the adoption of the label "Made in America" on all goods produced in this country, and for the ultimate universal sale of such goods in place of those of foreign manufacture. Now that the importation of foreign-made articles has ceased no more opportune time for the launching of such a campaign could be had, they say.

It was suggested by leaders in the knitting trade, Philadelphia being the home of that industry, that plain legible label of forceful design be adopted as a further means of making domestic manufacturers readily distinguishable. "There should be no more variation than in the design and colors of the American flag," said one maker. "Make the design universal and one will have to stop to read to ascertain what it stands for."

The only objection that might be raised against labelling goods "Made in America" would be on the ground that they might not appeal to that element of the public that insists on having the imported article.

"By instilling more patriotism into every day affairs, said one manufacturer in reply to this: "We could check snobbery."

GLORIOUS WAR.

(Bishop Greer.)

O God, who hast made of one blood all nations of men to dwell on all the face of the earth, and who in Thy Holy Word hast taught us that One is our Father, even God, and that we are all brethren; we pray Thee in this dark hour in international strife that Thou wilt open the eyes of the people and those who in Thy name are intrusted with the authority of government, to see and understand their right and true relation to Thee, and through Thee to one another. Teach them by Thy Spirit that hatred and violence are not strength but weakness; that the true safeguarding of a nation is not to be found in weapons of war, but in those eternal principles which make for righteousness and truth and brotherhood and peace.

REMARKABLE CASE of Mrs. HAM

Declares Lydia E. Pinkham's Vegetable Compound Saved Her Life and Sanity.

Shamrock, Mo.—"I feel it my duty to tell the public the condition of my health before using your medicine. I had falling, inflammation and congestion, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatience, passed sleepless nights, and had neither strength nor energy. There was always a fear and dread in my mind. I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms that had before taking your remedies, and all is pleasure and happiness in my home."—Mrs. Josie Ham, R. About Kentucky Politics and Politicians

Local Option Question Stirring Up 23 Counties

(Cromwell's Letter in Sunday's Enquirer.)

Lexington, Ky., Sept. 12.—Democratic state campaign headquarters opened Monday morning in Rooms 1006 and 1007 on the tenth floor of the Seabach Hotel in Louisville. State Treasurer Thomas S. Rhea, who at the meeting of the State Central and Executive Committees in Louisville September 3 was chosen Campaign Chairman with power to select the campaign committee and name the working force in headquarters, yesterday stated that he will announce the committee with the opening of the headquarters.

He expressed the opinion that a committee so large as that of the Presidential campaign in 1912, which numbered 15 members, is not need and would be cumbersome in this campaign, and he has therefore decided to have only six or seven on the committee.

Former Governor J. C. W. Beckham, nominee for the long term for United States Senator, will make the first speech in the campaign on the Democratic side, but the exact date had not been determined upon as this is written. It will, however, be between the 20th and 30th of September and probably at Somerset. Mr. Beckham having expressed a desire to open in the Eleventh Congressional District.

Chairman Rhea says he is not expecting any of the members of Congress to enter the campaign until after October 1, but he says he will have plenty of good speakers for the last 30 days of the race. He is in receipt of a letter from Secretary of State William Jennings Bryan expressing interest in the success of the ticket and offering his services. United States Senator Oliver M. James also will come to Kentucky for as many speeches as will be possible for him to make, he being in demand in other states.

Lieutenant-Governor Edward J. McDermott, whose reputation as a speaker is nation-wide, and Congressman A. C. Stanley, who ranks at the top as an orator, have offered their services and will be heard at a number of the most important points.

It seems to be about settled that former United States Marshal George W. Long, of Leitchfield, is to act as chairman of the Republican Campaign Committee, which is yet to be announced. For the present Secretary Alvis S. Bennett is at the helm in the permanent headquarters in the Gall House at Louisville.

A meeting of the Progressive State Central Committee will be held in the next few days at Louisville to arrange for headquarters from which the campaign of the Moose men is to be conducted.

Wood F. Axton, who was defeated by John H. Buschmeyer for Mayor of Louisville this week said that the Bull Moose throughout the state will stand loyally to the nominees of their party.

Local option elections will be held this month in 15 of Kentucky's 23 wet counties.

Monday, September 21, elections to determine whether or not intoxicating liquors may be sold in licensed saloons will be held in Christian (Hopkinsville), Davies (Owensboro) and McCracken (Paducah), the names in parenthesis being those of the principal city in each county, and Monday, September 28, in Henderson (Henderson), Bourbon (Paris), Bell (Middlesboro), Boone (Burlington), Carroll (Carrollton), Clark (Winchester), Anderson (Lawrenceburg), Fayette (Lexington), Mason (Maysville), Montgomery (Mt. Sterling), Shelby (Shelbyville) and Scott (Georgetown).

The eight wet counties in which the question is now to be submitted are: Boyd (Ashland), Campbell (Newport), Kenton (Covington), Jefferson (Louisville), Franklin (Frankfort), Nelson (Bardstown), Marion (Lebanon), and Meade (Brattonburg). Frankfort business men were able to prevent the submission of the question in Franklin county this month, but a petition has been put into circulation calling for an election to be held December 2.

The dry forces will next year, if their present plans are carried out, carry their campaigns into all of the remaining wet counties, with the exception of Jefferson, Kenton and Campbell, and this will be followed by an attempt to elect a majority of the next General Assembly to insure the adoption of a measure submitting to a vote of the people a constitutional amendment that will permit of the adoption of statewide prohibition.

Grand Corral Forming Around German Army--Defeat Certain

LATEST WAR BULLETINS

London, Eng., Sept. 14.—Except for the army which has been attacking Verdun, the German forces in France have fallen back all along the line, according to the French official report. From Nancy to the Vosges they have withdrawn from French territory, while on the extreme right General Von Kluck and General Von Buelow continue to retreat to the northeast.

New French Army Upset Plans.

The new army which came out from Paris, however, upset this calculation and, with his flank threatened, the German General had to withdraw, a movement which has been continued up to the present.

Belgians Still Thorn in German Side.

The Belgians, who have received some big guns and reinforcements from somewhere, by a sortie from Antwerp, have prevented the Germans from sending more troops out of the country.

Populations of Berlin Benumbed by News of German Defeats at Front.

Geneva, Switzerland, via Paris, Sept. 14.—News of the German retreat, despite every precaution has passed through Switzerland to the north and caused profound depression in Germany, after so many announced victories.

According to advices received here people have gathered in the streets in various German towns, shouting: "Tell us the truth! Give us the news!"

The newspaper offices at Munich have been closed, as disorders are feared.

It is also reported that the news of the steady retirement of the Germans in France has trickled into Berlin and been numbered the people.

Along the Swiss-German frontier, the full extent of the German retreat is known. People are crying: "If the French have beaten us, what will the Russians do?"

COUNTY AND STATE EXAMINATION.

Will be held in my office on September 18 and 19th.

JESSIE O. YANCEY,

Beautiful, beautiful fall weather. September is half gone.

Public Sale!

If not sold privately previously, and considering the serious condition of my eyes, I will offer at Public Sale to the highest bidder on October 14th, 1914, at two o'clock, p. m., at the courthouse in Maysville, Ky., my farm, containing one hundred and fifty-two acres, two rods and twenty-six poles. It is situated on the Minerva and Dover turnpike, about one and a half miles from Fern Leaf. This farm has on it a residence of nine rooms and another house of five rooms, and the necessary outbuildings; also a splendid tobacco barn, eighty-four feet long, a stripping house and large ice house. It is well fenced, with woven wire fence, and well watered. Is all in grass but about fifteen acres, which is in corn. I have no hesitancy in stating that this is one of the best farms in that location of the county, all of the land, walnut, sugar trees and ash, grows a very fine quality of tobacco. There is also an abundance of locust timber and sufficient fruit. It is convenient to one of the best schools in the country, with four school wagons passing to convey the children to school; also several churches near, and is in a splendid neighborhood, which is very essential in seeking a location. The farm will be offered as a whole and in two tracts, as it can be divided and make two nice-size farms with a house on each. Possession given November 3rd, 1914, with the exception of the corn land, which will be when the corn is cribbed. Terms of sale, one-half of the purchase money November 3rd, 1914, and the other one-half in one and two years, with a lien retained on the land and six per cent. interest per annum on deferred payments. If the purchaser prefers they can pay all cash. The right is reserved to reject any and all bids if not satisfactory.

Any one wishing to buy will please call at my room, 221 W. Second street, Maysville, Ky.
